

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Since putting our name and number on the DO NOT CALL LIST, our FAMILY can come home and play games, color, EAT dinner, talk, and watch television WITHOUT the rude interruptions of telemarketing phone calls. I have been insulted and degraded by some of these telemarketers. If i want to apply for a credit card or vacation club, or donate to a charity, I am perfectly capable of doing so at my own will. I do not need to be bothered repeatedly to be asked to do so. Not to mention participating in research studies. I would sign up to do this if I wanted to.

Since Indiana's Telephone Privacy law has taken effect, I have received NO annoying, harrassing, life interrupting telemarketing calls. NONE! We can enjoy a quiet evening with our children, and do not have to FEAR answering the telephone! It is wonderful!

As a citizen of the United States, I do pay taxes and fees in order to take advantage of the "PRIVELAGE" of having telephone service to use. This includes fees that the FCC adds. Therefore it is high time that THE PEOPLE who pay for this service decide whether or not we want our family lives to be interrupted every evening!

LET ME CHOOSE WHO I WANT TO CALL MY HOUSE!! I PAY FOR AN UNLISTED, NON-PUBLISHED NUMVER SO PEOPLE CANNOT CALL ME-I MUST BE WASTING MY MONEY?? JUST LEAVE IT UP TO THE INDIVIDUAL PEOPLE, IT IS NOT ABOUT MAKING MONEY IT IS ABOUT PEOPLE'S PRIVACY AND RIGHTS TO CHOOSE FOR THEMSELVES! Remember, I receive NO CALLS NOW and this makes me VERY HAPPY!! Thanks for your time and consideration.
